

Risk Calculation

Risk Factor (Response)

- 1) If (Response = 'No') and (flag of control = 1)

Risk Factor of Response = Rating of control * 1

- 2) If (Response = 'Yes') and (flag of control = 2)

Risk Factor of Response = Rating of control * 1

Risk Factor (For Assessment)

- 1) If (Critical RF ≥ 20) or (All RF ≥ 75)

Rating = "D"

- 2) If (Critical RF ≥ 10 && Critical RF < 20) || (All RF ≥ 45 && All RF < 75)

Rating = "C"

- 3) If (Critical RF ≥ 5 && Critical RF < 10) || (All RF ≥ 15 && All RF < 45)

Rating = "B"

- 4) If (Critical RF < 5) || (All RF < 15)

Rating = "A"
